

Notes for installation/upgrade of LidcoMaker™

When installing & upgrading

Allow 40-60minutes on average (Depending on the machine configuration)

1. Check [System Requirements](#).
2. Take backup of existing files (refer properties→start in→_____ then save it as Existing Name_DDMMYY) Only need to backup Data and Database, not program files (refer to Backup instruction sheet).
 - **DATA:** Start → RUN → enter CMD → CD C:\WM5 (press TAB to see options) → C:\WM5\Lidco→ PKZIP -PR LMmmyy.zip *.DAT
 - **DATABASE:** Open SQLServer2005_SSMSEE. Open active database (refer WM login page) and then right-click→ tasks→ backup→ select overwrite in options→ select back up location
3. Install DESKEY.EXE from installation CD/Thumb-drive
4. Install DOTNETFX from installation CD/Thumb-drive (repair if already installed)
5. Install WINDOWS INSTALLER-KB893803-v2-x86 3.1 from installation CD/Thumb-drive (possibly already there) (not required for XP → SP3)
6. Install SQLEXP.exe from installation CD/Thumb-drive (Check 3 main points – Multiple users; see Chintan. 1. On Name + Company page, uncheck “Hide advanced configuration options”. 2. Change X Client Components to “entire...” 3. For authentication mode question select; Mixed Mode (Not Windows Authentication Mode) and use “WM” as password)
7. Install SQLServer2005_SSMSEE from installation CD/Thumb-drive
8. Install WM5751Setup from installation CD/Thumb-drive. Check license files with Chintan first. Select Installation folders;
 - Program directory → C:\WM5751
 - Data → C:\
9. Program (5751) Password; SSCR11SUN
10. WM icon properties change Start In Path to refer to Lidco data

WindowMaker information

Windowmaker is made up of three entities;

1. Data – system details, rules and pricing
2. Database – Customer codes and job details
3. Program – Standard across all WM versions (no need to back up)

Windowmaker system requirements

	Workstation	Server
Processor	Minimum: 600 MHz processor Recommended: 1 GHz processor or more	Minimum: 600 MHz processor Recommended: 1.9 GHz processor or more
Operating System	Windows 2000 with SP4 & Rollup 1 Windows XP with SP2 Windows Vista Business & Ultimate	Windows Server 2000 Windows Server 2003 with SP1
Memory	Minimum: 256 MB RAM Recommended: 512 MB RAM or more	Minimum: 512 MB RAM Recommended: 1 GB RAM or more
Hard Disk Space	200MB for installation	Required space varies with number of Jobs Minimum: 10 GB Recommended: 20 GB or more
Display	Minimum: 1024 x 768 Recommended: 1024 x 768 or higher	Minimum: 1024 x 768 Recommended: 1024 x 768 or higher
Database Software	N/A	Microsoft SQL Server 2005 (Enterprise, Standard or Workgroup)
Minimum Software	Microsoft Windows .NET Framework 2.0, Microsoft Data Access Components (MDAC) 2.8 Microsoft Internet Explorer 6.0 with SP 1, Installer 3.0	Microsoft Windows .NET Framework 2.0, Microsoft Data Access Components (MDAC) 2.8 Microsoft Internet Explorer 6.0 with SP 1, Installer 3.0
